*Please note that the Department of Personnel intends to use the book list on a limited basis to develop test items. More specifically, while the justification for correct responses may be drawn from materials on the reading list, it is not limited to that material. Justification may also be based on the collective Fire Service experience of Subject Matter Experts. When justification is based on experience, care is taken to ensure that correct answers do not conflict with the sources on the reading list. Although, the DOP suggests that candidates review the reading/reference list, preparation for the examination should not be restricted to the above reading/reference list. Since the test items will require open-ended responses, candidates will also have to rely on the application of knowledge and the application of administrative and supervisory principles.*
